

National Structured Diabetes Education *addressing local need*

Are you looking to...

- ✓ improve access to structured diabetes education?
- ✓ enhance quality and length of life for people with diabetes?
- ✓ reduce risk levels of complications, drive efficiency and reduce the cost of care?

Fully Managed | Closer to Home | Outcome Based

What is EMPOWER?

EMPOWER is a national, structured diabetes education programme designed to help people with Type 2 Diabetes understand what diabetes is, the effect it has on their body and how to make small, achievable changes to the food they eat and their everyday life.

Spirit Healthcare employs a specialist team of dedicated educators and experienced administrators to:

- Manage the referral process, with a dedicated 24/7 support line for patients
- Deliver the EMPOWER course across a range of community venues – during the week, in the evening and at the weekend
- Collect and review key clinical and quality of life metrics pre and post course

Suitable for up to 15 people per session, the EMPOWER programme is a single four-hour course designed to maximise uptake and completion rates, whilst delivering great outcomes!

Cost savings & impact

The patient experience

“ I would like to say what a fantastic thing that these meetings are. I was diagnosed with type 2 diabetes 2 years ago and believed that I didn't have a clue what it meant or how I managed it until today.⁶ ”

(Selina from East Lancashire)

99%

Friends & Family Test score⁵

“ The course has been a real plus to my diabetes. After five years of living with diabetes this is the first time I have found good knowledge about how to live appropriately with diabetes and not let diabetes control you!⁷ ”

(Ashit from Leicester)

Quality Assurance

- The EMPOWER programme is led by our Clinical Lead, educated to Masters level and with over 30 years experience in diabetes nursing.
- All educators are trained to deliver EMPOWER and are subject to annual reassessment.
- The EMPOWER programme was developed using an evidence based approach according to NICE criteria, is underpinned by a written structured curriculum.
- EMPOWER is QISMET certified. QISMET's Diabetes Self Management Education (DSME) Quality Standard is a way for providers to demonstrate they meet relevant national criteria, including the NICE Guidelines (e.g. NG28).
- EMPOWER is subject to regular External Quality Assurance.
